Complete Elevator & Elevator Spares Solution Under One Roof

6 PANEL CENTER OPENING AUTODOOR FOR CAR

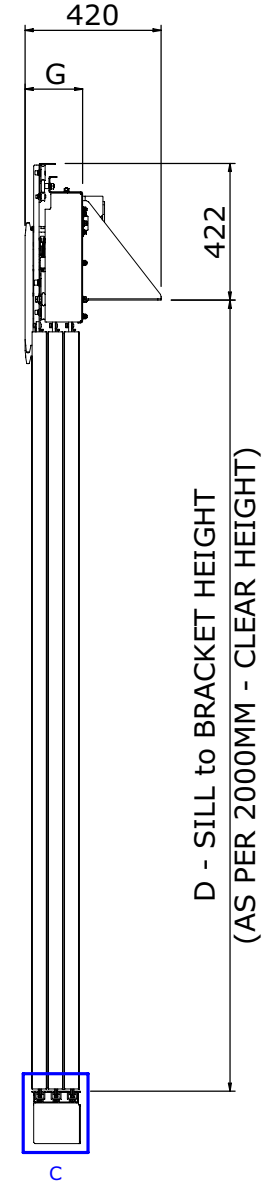

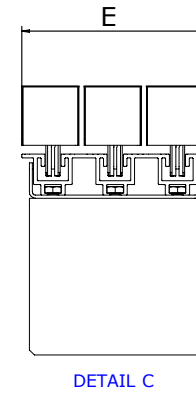

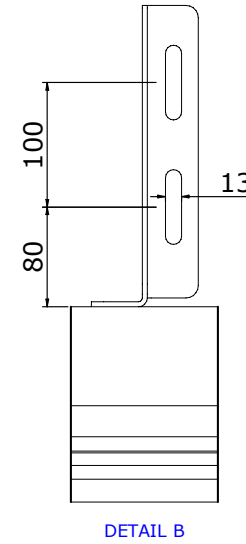

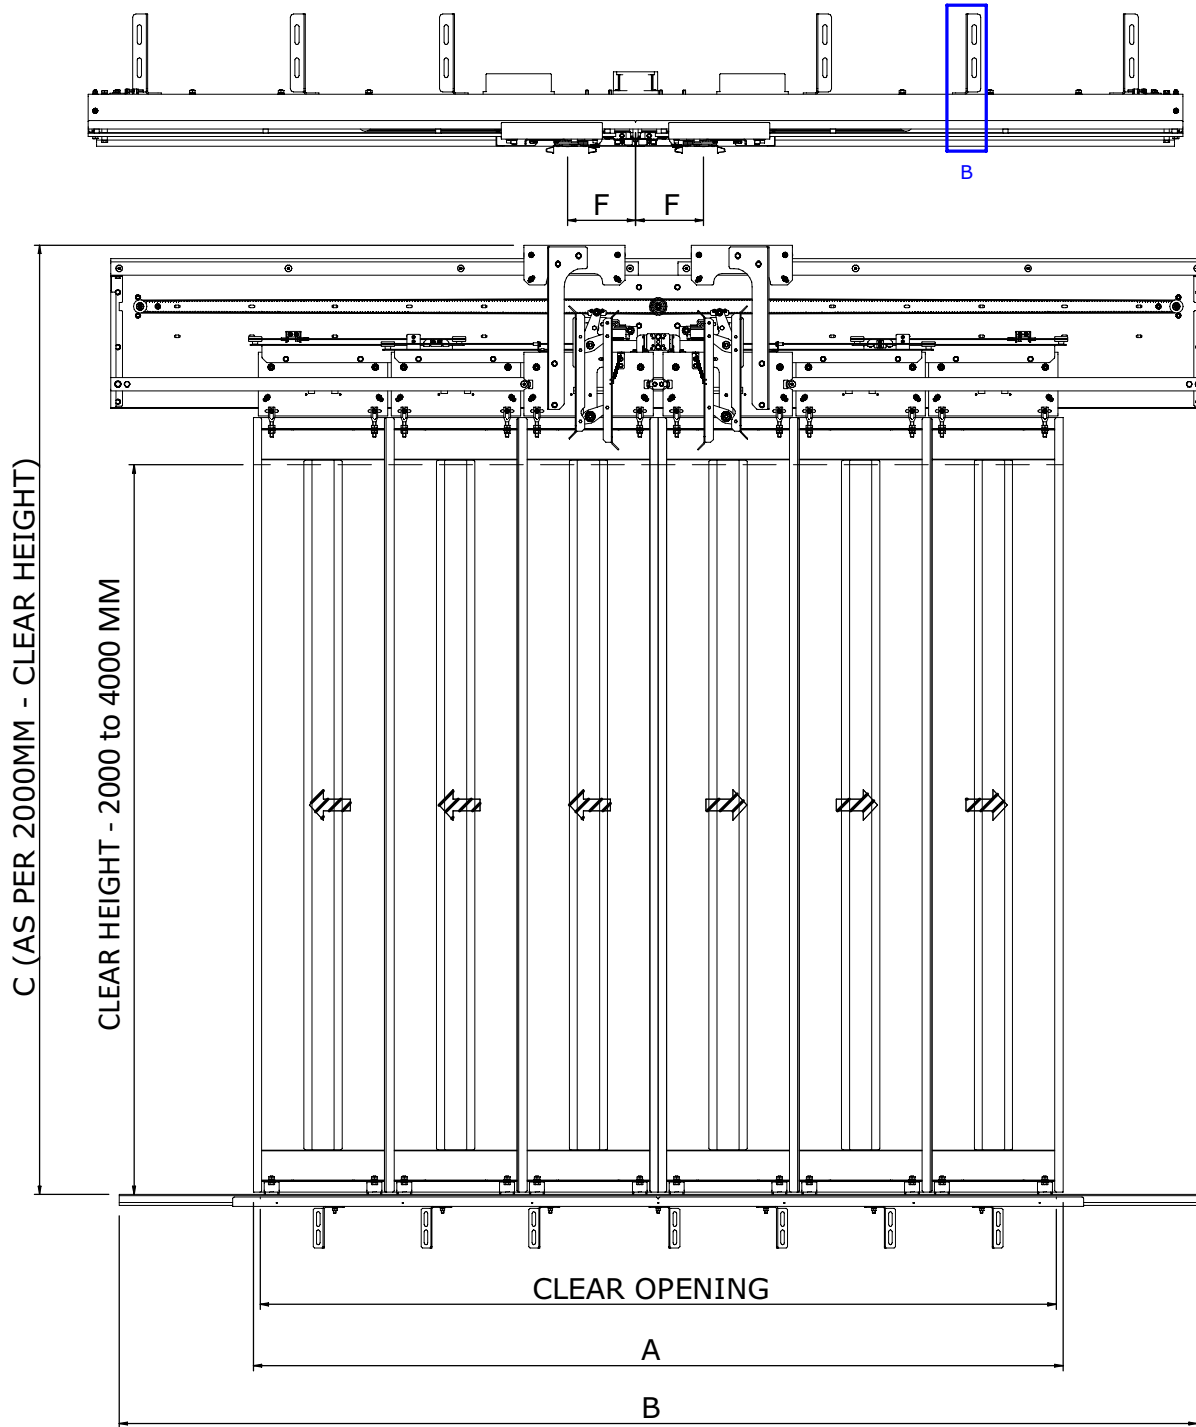

The 6-panel elevator auto door is a robust and reliable solution specifically designed for heavy-duty applications such as goods lifts and car lifts. Engineered to handle large loads, the door features a reinforced structure and smooth automated operation that ensures safe, efficient movement of bulky or heavy items. The 6-panel design allows for wider openings, accommodating vehicles and oversized goods with ease, while advanced safety sensors ensure the door responds quickly to any obstructions. Built to withstand high traffic and rigorous use, this auto door system enhances the functionality and durability of industrial lifting solutions.

6 PANEL CENTER OPENING AUTODOOR FOR LANDING

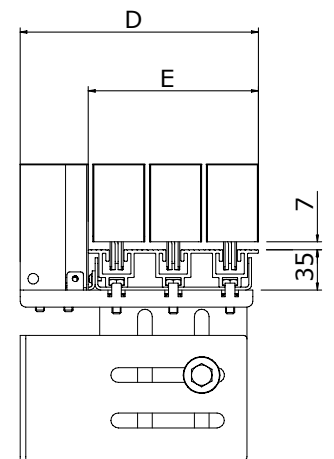

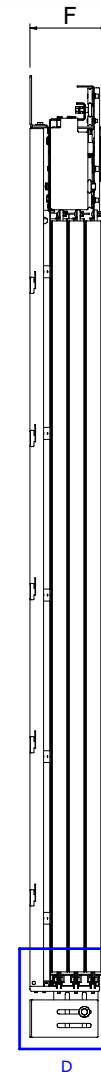

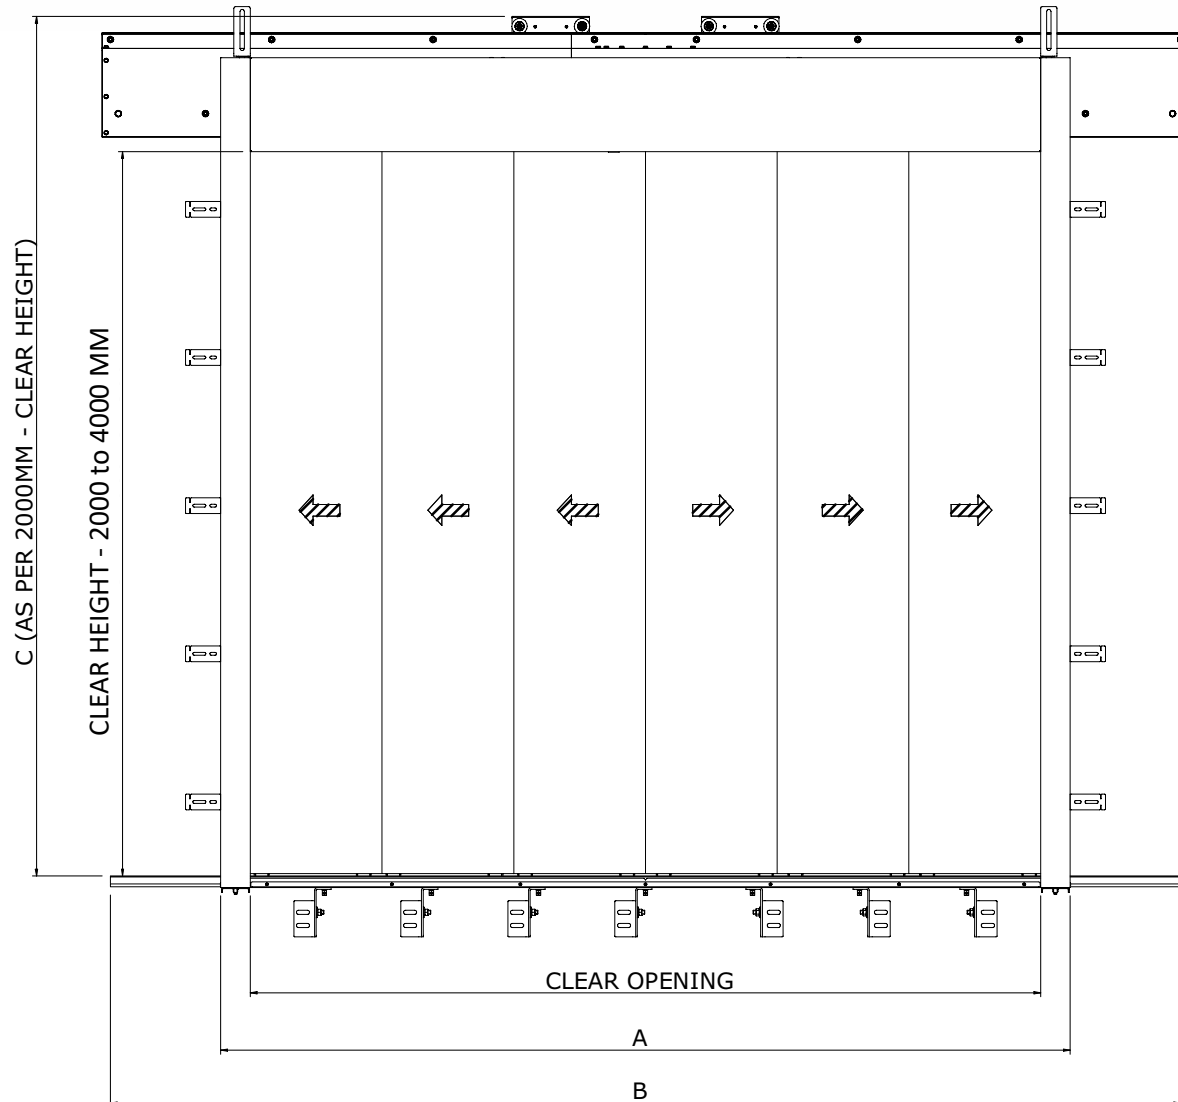

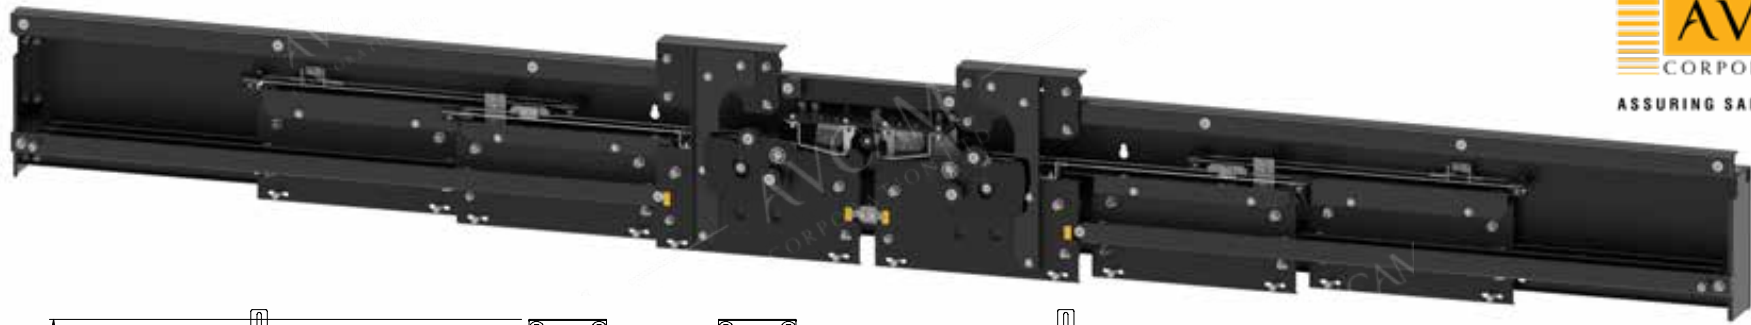

Advantage:

- Heavy duty structure for goods & freight elevator
- Using sheet metal form body, for good loading effect
- Low noise, smooth operation, low maintenance & eco-friendly
- More compact design for compact well
- Large torque & energy saving
- Encoder build vvvf frequency controller with motor for high accuracy
- Auto reset & power cut protection

Center Opening Automatic Door LANDING (6-Panel)
