4 PANEL CENTER OPENING AUTODOOR

HOSPITAL ELEVATOR

Patients on strature need to be transported quickly and smoothly with accompanying hospital staff and medical equipment. Food, laundry, medical supplies and equipment must be transported without interruption. Elevators are used by both patients and visitors, many of whom may have special mobility requirements. Doors of hospital elevator needs to be smooth and safe which ease the process of in and out from elevator.

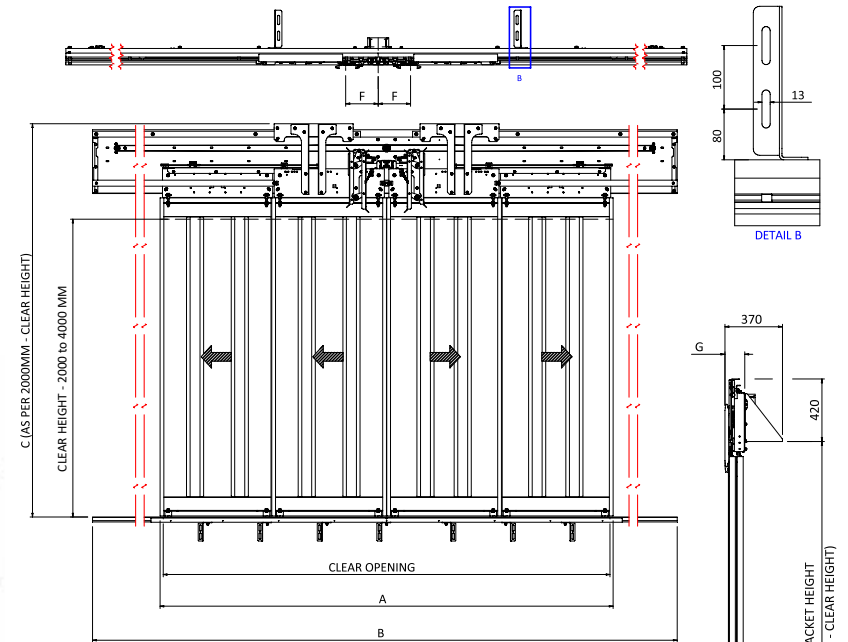

SMALL GOODS ELEVATOR

Small goods lift are found in hotel, airport, hospitals etc. This lifts can be designed in different sizes according to customer requirements. Small goods lift makes work easy by elevating goods smoothly without putting an efforts.

These lifts are secure in all conditions of operation and installation. These lifts are faster than other lifts. The capacity of small goods lift is between 100kg to 1000kg.
